Amenities include a fine dining restaurant at the ground floor and a library, business center, lounge and video room on the third. Halfway up the tower on the 29th and 30th floors are the spa and fitness center, juice bar, sun deck and lap pool for the exclusive use of residents.

The Antonio-Trump partnership has so far garnered the Asia Pacific Property Awards 2012 as the Best Residential High-rise in the Philippines. Says Trump: "We are overwhelmed with the tremendous success of this project in such a short time. Having 70 percent of a project sold before breaking ground and even prior to opening a showroom speaks of the strength of the local market and its increasing demand in the ownership of luxury real estate. When it's finally completed in 2016 the project will be like nothing you've seen before."

Trump Tower will be completed in 2016 at the 3.4-hectare Century City, the flagship development of Century Properties in Makati that includes a shopping complex and a world-class outpatient medical center.

**TRIUMPH**  
 AT CENTURY CITY

AS WITH ALL PROPERTIES BEARING THE TRUMP BRAND NAME, EACH ONE HAS TO BE **THE BEST**, THE MOST EXCEPTIONAL AND, AS THE DONALD LIKES TO SAY, **HUGE!**"

In the case of Trump Tower at Century City, "the architecture will be truly iconic," says Robbie Antonio, the development's Project Head and Managing Director of Century Properties, owner and developer of the iconic 56-storey skyscraper. "As a symbol of power, achievement and modern grandeur, Trump Tower at Century City is a dramatic architectural marvel of steel and glass. The building's exterior is designed in with a lustrous curtain wall that maximizes the city's spectacular

panoramic views," Antonio adds.

Says Eric Trump, Donald Trump's son and Executive Vice President of Development and Acquisitions of the Trump Organization: "The architecture (with its) incredible spire is something that is going to be prominent on the Manila skyline for years to come. It's really an iconic, modern building; very chic, something that really symbolizes everything that a Trump-branded project means." ■
